

## AIRJET SHOWER DRYING SYSTEM

Experience the much-anticipated luxury of a hot shower – without the after-shower humidity, mildew, or scrubbing.

Our powerful patented AirJet Shower Drying System is designed to be built directly into the ceiling and walls of your shower. With the touch of a button, the AirJet nozzles produce high-pressure air, quickly and thoroughly drying your space. Innovative green technology not only minimizes cleaning effort but reduces the need for harsh chemicals.

### Sophisticated craftsmanship

- Corrosion- and tarnish-resistant nozzles designed and made in the USA
- Elegant, custom finishes available to complement existing bathroom features

### Cutting-edge solution

- Prevents mold and mildew
- Minimizes watermarks
- Eliminates after-shower humidity
- Decreases slippery floors
- Extends the life of your tile and grout

AIRJET POWER TO DRY YOUR SHOWER
